

Aluminium Foil Tape

Product Description

Premiers aluminium foil tape is coated with a pressure sensitive emulsion acrylic adhesive. Self-wound without a release liner.

Typical Applications

Applications include:

- To alleviate moisture vapour transmission on liner panel side lap
- Double glazing industry.

Technical Information

	Self-Wound
Foil thickness	40 micron
Shear adhesion	60 1 kg @ 23°C
Elongation	5%
Adhesion to steel	10 N/25mm
Tensile strength	50 N/25mm
MVTR	1g/m ² /24 hr
Service temperature	-15°C - +120°C
Shelf life	1 year

Please note : The above technical information is given as a guide and is based on recent test data obtained under laboratory conditions. Materials should be fully tested by the end user to establish suitability of the product for the intended application. February 1997
